

El pretérito (-AR verbs)

Semillas: Elementary Spanish II

What is *el pretérito*?

The **preterite** tense in Spanish is used to talk about completed actions in the past. These actions are viewed as **finished**, are often **associated with specific time expressions**, and/or **have a clear beginning or end**.

For example, “We won the game yesterday,” would use the preterite tense because it indicates a single completed action at a specified moment in the past.

Remember that we have already learned another way to talk about the past.

We use the imperfect tense to talk about habitual or ongoing actions, unspecified time periods, or descriptions of scenes in the past.
